Glenn,

Attached is the document you asked for. It is a report by Descherts to the SFO on their investigation into corruption at ENRC. It was leaked - via an "independent PR consultant" - to the Financial Times and then a few days later the Daily Mail and The Guardian (possibly others). I do not yet know the name of the PR consultant but will find out next week.

Hope this is useful and I have briefed the FT on the PWC angle and so they might publish a story tomorrow (Thursday)

Let's talk soon about the other documents you sent me and SFO

Good luck

Mark
